

ARAVIND KRISHNA RATHENASABAPATHY

AI Automation | Software Development | Systems Thinking

■ 9344910661 | ✉ aravindkrishnarathenasabapathy@gmail.com

Profile

Pre-final year Computer Science student specializing in Cyber Security with hands-on experience in building AI-driven automation systems. Skilled in designing scalable workflows, integrating APIs, and developing intelligent systems that improve efficiency and performance. Demonstrated impact through automation and sales system optimization.

Core Skills

Automation & AI: n8n, Make.com, AI workflows, chatbot systems

Programming: Python, MySQL

Backend & DB: Supabase, Firebase

Platforms: Claude Code, Replit, Lovable, Anti-Gravity

Integrations: Clawdbot, OpenClaw

Experience

AI Automation Engineer Intern – Oval Consultancy Services

- Built and deployed automation workflows using n8n integrating multiple third-party tools
- Designed AI-driven systems to streamline operations and reduce manual effort

Sales Systems Intern – Build for Founder

- Architected and optimized sales systems improving conversion efficiency
- Contributed to a measurable 75% increase in sales performance

Key Projects

AI Automation Sales System

- Built end-to-end automated sales pipeline using n8n and integrations
- Reduced manual follow-ups and improved lead handling efficiency

AI Chatbot Systems

- Developed intelligent chatbots using workflow automation for real-time responses

Criminal Database System

- Built Python + MySQL based database system for managing records

AI Invoice Generator

- Automated invoice creation using AI logic and structured data inputs

Website Development (Anti-Gravity)

- Developed responsive web solutions using modern no-code platforms

Education

B.E Computer Science (Cyber Security) | 2023–2027

CGPA: 8.2

10th - 79%

12th - 78%

Additional

Languages: Tamil, English, Hindi

Soft Skills: Public Speaking, Teamwork

Roles: Intern, Sales System Architect
