

VISHVESHVARAN R

Computer and cyber
security Engineer

CONTACT **Phone:** 8825764371 | 6379032851
Email: vkumavishva@gmail.com

SUMMARY Motivated and detail-oriented Computer & Cyber Security Engineering student with strong fundamentals in network security, ethical hacking, and vulnerability assessment. Seeking an opportunity to apply technical expertise and contribute to cybersecurity and software development.

INTERNSHIPS **NUKE Technologies — Hardware Engineer Intern (1 Month)**
Assembled, troubleshot, tested PC components & networking hardware.
• Diagnosed issues & optimized performance.
NUKE Technologies — Front-End Developer Intern (1 Month)
• Developed interfaces using HTML, CSS, JS.
• Enhanced responsiveness & user experience.

EDUCATION **Prince Dr. K. Vasudevan College of Engineering and Technology**
B.E. Computer Science & Cyber Security (2023–2027)
• CGPA: 7.66

SKILLS **Technical:** C, C++, Python, Java, HTML, CSS, JavaScript, MySQL, Cybersecurity basics, Network analysis, Full-stack development
Soft: Communication, Analytical Thinking, Attention to Detail, Team Collaboration, Problem Solving, Time Management

CERTIFICATES	Network Packet Analyzer (Python): Packet sniffing tool with filtering & logging.	Student Result Management System (Java Full Stack): CRUD, authentication, admin dashboard
	HP: Introduction of cybersecurity Awareness	IoT-Based Intrusion Detection System: Motion sensor alert system with Blynk real-time notifications.
	HP: Artificial Intelligence	Certified CyberSecurity Educator professional (CCEP)
	Portfolio Website: Responsive personal site with smooth UI/UX.	aws – solutions architecture job simulation
